

LIRA LUXURY

- Tastiera a contatto
- Commutatore 4 posizioni (0 - 1 - 2 - 3)
- Tubo dell'acqua in acciaio snodato
- Tubi vapore antiscottatura
- Manopole speciali

- Touch-screen key push button
- Main switch 4 positions (0 - 1 - 2 - 3)
- Loosen inox water pipe
- No-burn steam pipes
- Special handles

Caldaia in rame a circuito termosifonico-tubature in rame

- Copper inner boiler continuous heat circulation-pipes made in copper
- Interner Kassel aus Kupfer, Heißwasserheizung-röhren aus kupfer
- Chaudière en cuivre, circulation par thermosiphon-tuyauterie en cuivre
- Caldera a circulación termosifonica-tuberias de cobre

Gruppi termocompensati

- Heat-balancing units
- Temperaturlausgleichsgruppen
- Groupes thermocompensés
- Grupo profesional hidraulico con circulación termosifonica

T.C.I.

T.C.I. – temperatura controllo indipendente

Dispositivo elettronico di controllo della temperatura erogazione caffè a caldaia indipendente per ogni gruppo. Caldaia per vapore autonoma, con erogazione acqua calda da scambiatore di calore.

T.C.I. – separate temperature control

Electronic coffee temperature control device with separate boiler for each group. Separate steam boiler, with hot water dispensed from heat exchanger

T.C.I. – contrôle température indépendant

Dispositif électronique de contrôle de la température de débit du café avec chaudière indépendante pour chaque groupe. Chaudière pour vapeur indépendante, avec débit d'eau chaude de l'échangeur de chaleur.

T.C.I. – unabhängige temperaturkontrolle

Elektronische vorrichtung für die kontrolle der kaffeeausgabetemperatur mit unabhängigem kessel für jede gruppe. Selbständiger dampfkessel, mit warmwasserausgabe durch wärmetauscher

T.C.I. - control de temperatura independiente

Dispositivo electrónico de control de la temperatura de distribución del café con caldera independiente para cada grupo. Caldera para vapor autónoma, con distribución del agua caliente desde el intercambiador de calor.

OPTIONAL:

- Gruppi alti
- High groups
- Höhere brügruppe
- Haut groupes
- Grupos alto
- TURBO STEAMER - Automatico sonda vapore (per schiumatura del latte)
- Auto probe steamer - Turbo APS (for milk cream)
- Automatischer Dampfzeuger APS-sonde (für milch-creme)
- Turbo vapeur automatique de sonde (pour crème de lait)
- Vapor automático de la punta de prueba (por crema de la leche)
- Accensione e spegnimento automatico (solo modello elettronico)
- Automatic turning on/off (only programmable dosing model)
- Marche/arrêt de la machine a café (Seulement modèle de dosage programmable)
- Automatisches an/aus betriebe (nur programmierbares dosierendes Modell)
- Operaciones con./desc. automáticas (solamente modelo de dosificación programable)
